

# BUILD REPAIR GROW'S "LET'S GROW!" PARTNERSHIP PROGRAM

By becoming a member of the Let's Grow! partnership program, you align your organization with Build Repair Grow's mission to teach young people in Hampshire, Franklin, and Hampden Counties practical skills that build individual resiliency, problem-solving, and self-sufficiency.

The elimination of home economics and shop classes from school curricula has created a gap in practical, skill-based, experiential learning that BRG helps to fill through our workshops.

Let's Grow! members have access to special benefits throughout the year that are aligned with their level of giving.

The minimum amount to join Let's Grow for an organizational membership is \$500, though by looking at the tiers you will see many opportunities to show your support! And the most important benefit – knowing you are making a difference. Sound good? Let's Grow together!
